

# SEARO PACKAGING CO., LTD

PROFESSIONAL POLYESTER(PET) STRAPPING MANUFACTURER & EXPORTER

## Company profile

**SEARO PACKAGING** is the leading company in the field of manufacturing polyester (PET) strap in Taiwan. We have experiences of over a decade and are proud to provide excellent and stable quality PET strap. Our PET strap occupy 70% of Taiwanese market share and have been exported to America, Mexico, Australia, South Africa, Italy, countries in Middle East and Southern East Asia, etc.

As a reliable manufacturer and supplier, SEARO PACKAGING insists the management concepts as follow:

### **Systematic Quality Control:**

We test every PET strap roll in terms of width, thickness, tensile strength, elongation, flatness, straightness, and splitting. With the strict quality control, customers will trust us and will be satisfied with our products.

### **Professional Technician Team:**

Our professional engineers and technicians would provide custom made and OEM service.

### **Automated Production Line:**

The entire production process is automated control. And also we have high-tech and innovative production technology. These mean that we can reduce our labor cost which makes us more competitive in price.

### **Made in Taiwan:**

It is our greatest honor as Taiwanese to declare that our PET strap is “Made in Taiwan”.

SEARO PACKAGING upholds the principles of honesty, sincerity, and down to earth. We believe that only by insisting on these principles can a corporation survive in the long run.

Mesmerizing in designs, we have for our clients high grade

**The largest manufacturer of PET strap in TAIWAN**

## What & Why Polyester(PET) strap

PET Strapping, also called Polyester strapping, processed by using environmental protection "Polythene Terephthalate" as raw material. Instead of steel strap, it can save about 50% cost comparing steel strapping. PET strapping have been used in various industries like Aluminum ingot, Glass, Ceramic, Ply wood, Construction material like stone, marble and brick, Paper, Cotton baling, Fiber baling, Clothes bailing, Steel plate, Steel pipe etc.

### Benefit of PET strap:

Convenience: Light in weight, which is easy to carry.

Appearance: It reduces indentation at unprotected package corners.

Preservation: Do not rust and stain products when exposed to the elements.

Environmental protection: It's recyclable, which reduces packaging waste and disposal cost.

Safety: It's safer to use than steel strap. It doesn't have sharp edges and eliminate backlash.

**Our strap is suitable for all machines** including CMR, Columbia, Cyklop, Delonca, Endra, Fromm, Itatools, Itipack, Mosca, OMS, Orgapack, Reisopack, Sander, Signode, SMB, SOB, Strapack, Strapex, Titan, Transpak and many others manufacturers.

## SEARO specs sheet of PET strap

### Other Important Data

Tolerance:	Width +/-0.3mm Thickness +/-0.03mm	Core Size:	200mm×152mm (8"×6") & 406mm×152mm ((16"×6")
Embossed Surface:	Initial F after type number, Thickness increase 0.05-0.07mm	Nett weight limit per roll:	Nett wt 35kg (any weight within this limit)
Elongation:	10%-15%	Pallet Weight:	About 16.5kg
Color:	Green only (other colors have to be discussed further)	Pallet Size:	114cm×114cm
※ "A" means strap for automatic machine; "H" means strap for Manual Tool; "F" means Embossed Surface			

## Packing & Shipping

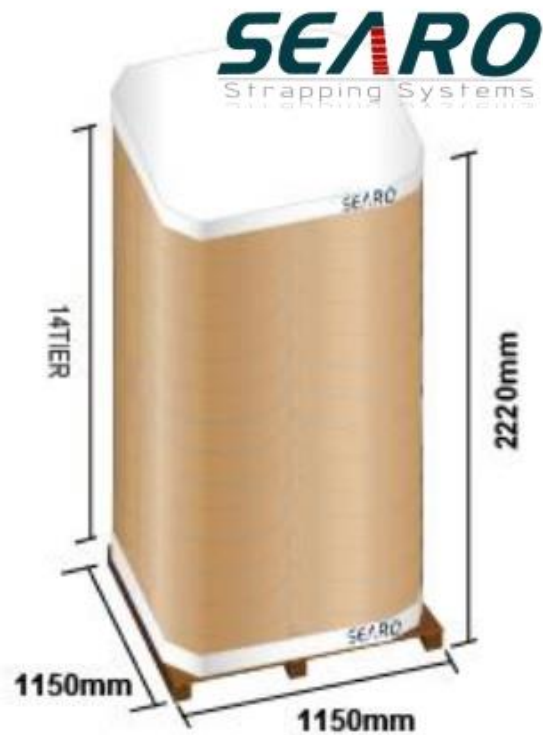

**Container:** 40' HQ

**Pallet** : N.20

**Roll Of Each Pallet** : 60rolls

**Net Weight Of Each coil:** 18.5kg

**Total Weight** :22200kg

**Container:** 20'

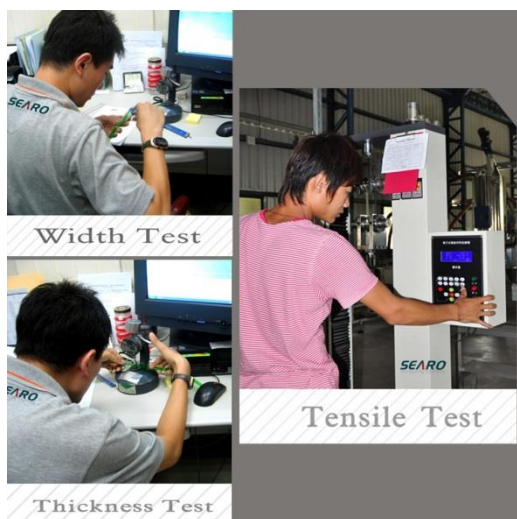

**Pallet** : N.10

**Roll Of Each Pallet** : 56rolls

**Net Weight Of Each coil:** 18.5kg

**Total Weight** :10360kg
